PRODUCTION EMPLOYEES NEEDED

COMPOSHIELD

Protected Military Vehicles

High-Performance Armor Systems

About Us:

We design and build special armor for military vehicles that protects against explosions, bullets, and other threats. Our products save lives every day.

Job Description:

We need workers to help make our armor and protective equipment. You will work with your hands to create high-quality safety products.

Your Daily Work Will Include:

Setting up materials like fiber and ceramic. Building and pressing panels in molds. Working with tools to shape our products. Checking quality of finished items. Packing completed products for shipping.

What We Offer:

A friendly workplace with people from many countries. Fair pay based on your skills and experience. Training to learn new skills. Safe working conditions. Chance to grow with our company.

What You Need:

Must speak basic English or Danish. Able to use hand tools and machines. Basic writing and typing skills. Must have a clean criminal record.

Bonus Skills (helpful but not required):

Experience with polyurethane materials. Knowledge of ISO 9001:2015 standards. Good attention to detail. Hand-eye coordination.
